

# SENIORS TECH SUPPORT

Helping seniors connect and communicate safely with others and remain independent. We ensure your devices and software are trouble free.

## COMPUTERS

Just bought a new laptop and want it set up properly? Having issues printing? Trouble with emails? What about backups and software updates?

## MOBILE PHONES

Trouble setting up or using your mobile phone? Set up access to MyGov and COVID apps. Training in how to use apps, messaging, calendars and email on your mobile.

## VIRUS PROTECTION

Virus and security scans, remediation and removals, software updates. Advice on recognising spam and potential hacking.

## SUBSCRIPTION OR ON-DEMAND BOOKING

Much like having roadside assistance for your car, our Seniors Tech Support Member Subscription offers you peace-of-mind knowing that whenever you have technology issues, concerns, or even just questions, we are here to support and help you.

You don't have to join as a member. We also offer on-demand bookable services such as our New Device Set-up, Home Visits to solve issues and a comprehensive Virus Scan and Software Update package to keep you safe.

## SENIORS-FOCUSED

We are experienced in providing technology support services to seniors and focus on your individual needs.

We ensure that you are not rushed. We listen to you and understand your needs. We do not use any techno-speak or confusing acronyms.

Our on-demand services provide an easy way to test our services. However, our Member Subscription package provides many extra benefits and represents great value.
